Bosco
College

T-LEVELS

THE NEXT GENERATION

ABOUT US

T Levels have been designed with leading businesses and employers to give you the knowledge and skills you need, so you can be confident your T Level will move you to the next level.

St John Bosco College prides itself on being an excellent provider of post-16 education. We have a strong body of subject specialists, who are committed to delivering outstanding teaching and learning in a caring and supportive environment that encompasses the RUAH ethos of our school – Respect, Understanding, Affection and Humour.

This approach continues to build and enhance the strength and positivity that our school community provides with the support of our dedicated pastoral team and enrichment programme. Our commitment to our students believing and achieving in academic success and personal growth is at the forefront of all we do.

We have an extensive post-16 curriculum, which helps our students to transition into a high level of learning which caters for different interests and abilities inclusively. Our career programme is robust and unique, as it allows students to experience a variety of professions, explore different opportunities and develop their networking skills. This helps our students to grow as individuals and make informed decisions that prepare them for a range of pathways from university, apprenticeships and employment.

WHY ST JOHN BOSCO COLLEGE?

We believe that there is no limit on what our students can achieve in life and we provide the best possible environment for each student to flourish.

This is achieved by offering;

ACADEMIA

A wide range of course options and pathways with a fantastic careers and enrichment programme

CLASSROOM LEARNING

High-quality teaching that stretches students with outstanding academic and pastoral support

FACILITIES

An excellent learning environment with a dedicated sixth-form study centre

FUTURE PROSPECTS

We support students to access Russell Group universities, apprenticeships and employment

OUR VALUES

St John Bosco is a school community with a distinctive and welcoming Catholic Salesian ethos.

We practise our ethos through 'RUAH' - a Hebrew word for 'breath of life'.

- Respect
- Understanding
- Affection
- Humour

We believe that this Salesian spirit makes our school a place where everyone, regardless of their faith, can learn and grow together in a supportive environment.

WE CAN OFFER

- A purpose built T-Level suite
- Don Bosco Scholarship Fund
- Dedicated Sixth Form room study zone
- Travel expenses covered for all industry placements

OFSTED OCTOBER 2022

Students are taught to practise independent research, which prepares them well for higher education.

T-LEVELS

THE NEXT LEVEL QUALIFICATION

T-Levels are a 2-year qualification that you can study as an alternative to A Levels or vocational programmes. You will need a grade 5 or above in Maths and English. We also require an additional four subjects at grade 5 and above,

Upon completion, you'll receive an industry-recognised qualification that is equivalent to three A-Levels. Combining classroom learning and an extended industry placement, T-Levels offer a course designed with employers and businesses and is accepted by over 150 UK universities. Each T-Level has an in-depth placement that lasts at least 45-days.

TECHNICAL SKILLS

Combination of specialist skills and core knowledge needed for their chosen industry.

CLASSROOM LEARNING

80% in class learning that combines coursework and practical learning. Working as part of team is a vital skill.

INDUSTRY PLACEMENT

Each student has a 45-day minimum industry placement to prepare them for work and build their confidence and skills.

FUTURE CAREER

Students are taught cutting-edge techniques at industry standard to ensure they excel in their chosen profession.

INDUSTRY PLACEMENTS

A core component of the T-Level is the industry placement that is at least 45 days. This is one of the many elements that set T-Levels aside from other post-16 qualifications.

Alongside technical knowledge and skills that are relevant to their chosen industry, students will also learn on the job.

After completing their course, many T-Level students are fast-tracked onto the higher apprenticeship where they have done their placement.

The placements are seen as a talent pipeline where employers have the opportunity to identify passionate students who can thrive within their company.

SKILLS ACQUIRED

- Teamwork
- Agile frameworks
- Programming
- Problem-solving
- Confidence
- Digital technology

“With the ongoing skills shortages in both the construction trades and professions, industry placements give us a chance to see and work with young people as a shortcut in the recruitment process. Having spent nearly three months working with us, they are already part of the team and understand the company and how we work.”

T LEVELS

DIGITAL PRODUCTION,
DESIGN & DEVELOPMENT

DIGITAL PRODUCTION, DESIGN AND DEVELOPMENT

WHY STUDY THIS COURSE?

The UK digital industry is a major source of employment. Digital skills span all industries and almost all jobs today require a proficient level of digital literacy.

According to a report by WorldSkills Uk, 1-in-4 businesses require their employees to have advanced digital skills. Often the starting salaries in the digital sector are 30% higher than non-digital roles.

This course is intended for students who wish to pursue a career in the digital sector, with an occupational specialism in digital production, design, and development.

During the 2-year course, students will learn the core knowledge and skills that are needed for entry to a range of digital occupations.

If you are passionate about digital business, programming, computer science or digital technology, this is the course for you.

STUDENTS WILL LEARN;

- Problem-solving
- Programming
- Emerging issues and the impact of digital
- Legislation and regulatory requirements
- Business context
- Data
- Digital environments
- Security

ASSESSMENTS

2 EXAMS + EMPLOYERS SET PROJECT

Core Paper 1: Digital Analysis,
